

## S40 HF (High Flow)

Effective, economical cleaning for any size tank

### Features

- High-impact spray for strong cleaning
- Hygienic, self-cleaning construction
- Dual bearings allow for mounting at any angle
- Multiple spray patterns for targeted cleaning
- Increased mechanical action reduces CIP time and costs

### Applications

- Static spray ball replacement
- Heavily soiled tank surfaces
- Higher pressures, lower flow

### Spray Coverage

360°

### Specifications

<b>Material</b>	316L
<b>Connection</b>	Pin, Thread, Weld
<b>Spray pattern</b>	360°
<b>Recommended max. radius for cleaning</b>	6.5 ft
<b>Pressure</b>	22 – 44 psi
<b>Flow Rate</b>	22 – 30 gpm
<b>Bearing</b>	Double ball bearing*
<b>Mounting positions</b>	360°
<b>Max. working temp.</b>	446 °F (230 °C)

\*Hastelloy® C-22® available upon request

# TrueClean® S40 HF (High Flow)

## Consumption

Measuring Temperature: approx. 77 - 86 °F. Measuring Medium: Water  
 These curves correspond to the S40 HF with thread connection

## Dimensions

Connection	Type	D1	D2	H	Weight (oz)
Pin	Series C (ASME)	1.02	1½	3¾	9.5
Weld	Series C (ASME)	¾	1½	4¼	9.25
Weld	Series C (ASME)	1	1½	4¼	9.75
Thread	NPT	½	1½	3¾	10.7
Thread	NPT	¾	1½	3¾	10

All dimensions are shown in inches.
